3P Patronen Filter

3P Technik

Item #1000300

PRODUCT OVERVIEW

A Small economical rainwater filter with a steep angle of filtration. Best installation in rainwater tanks. Due to the inclined angle of the filter sieve and its very smooth surface structure the dirt is rinsed into the sewer. Filter cartridge mesh in stainless steel within plastic housing.

- Low maintenance, due to the self cleaning design
- Food grade high quality polyethylene construction
- Compact filter for use when there is little room
- Accepts high volume of water flow

Low maintenance, depending on the contamination.

Housing material: Food Quality Polyethylene

For roof areas up to 2293 sqft.

Flow Rate: 1.69 gal per second.

All connections 4 inch.

Height difference of 0 mm between rainwater inlet and wastewater outlet.

Material filter cartridge: Stainless steel 1.4301

Mesh Size: .07 x 1.7 mm 650 Micron

Weight: 11.40 lbs.
Dimensions In Inches: H10.24 W12.60 D11.62
